## La-Z-Boy, A Legacy of Comfort.

It all began back in 1927. Two young cousins, Edwin J. Shoemaker and Edward M. Knabusch, joined together to design a chair that would add both comfort and enjoyment to the lives of millions of families - and the world's first recliner was born! What began in the small community of Monroe, Michigan has expanded beyond recliners with thousands of dedicated workers in manufacturing facilities around the world. Not only can you feel good about your furniture, you can feel good about how it's made.

# The Fine Art of RELAXATION

Many of our reclining sofas, sectionals and chairs give you the power to recline at the touch of a button and go from upright to fully reclined smoothly and effortlessly. You can even raise and lower the legrest and back individually for an almost endless number of relaxing positions.
